Hi Larisa,

After the monthly Superfund Risk Assessment meeting this morning (9 – 10 am) Chloe, Ula and I called Mr. Gorgon at the number you provided Ex. 6 - Personal Privacy No answer, but we left a voice mail suggesting tomorrow morning or early next week as a good time for a follow-up discussion of his concerns. Presently waiting to hear back from Mr. Gorgon.

Pat and Mark, Let me know your thoughts on this. I can reach out to him again about Friday but it would be helpful if I can propose a couple of times that you would be available to talk.  
Thanks, Larisa

Perhaps Larissa could schedule a call for this gentleman with Mark M and Pat E for this Friday if Pat can do it by phone. I am continuing to hear about the need for agencies to be more responsive in Petersburg.

**Subject:** Follow up needed - PFOA

Hi all,

I'd like to make a request for a follow up phone call to a gentleman I spoke with earlier today. His name is Bob Gorgon and he is from Petersburg. He originally reached out to me because he had some questions about how EPA came to our 100ppt recommendation in Hoosick Falls. He has some further questions that I think would be best addressed by you all about how the new long-term standard that EPA is developing relates to people who already have potentially had many years of prior exposure to high levels of PFOA. He also wanted to speak with us further about dermal and inhalation exposure.

He generally expressed frustration at the handling of the situation in Petersburg and would like to see an EPA presence there. His phone number is Ex. 6 - Personal Privacy Please let me know when you've had a chance to follow up with him. Thanks!
